

Submitter: Pat Tay

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3202

Testimony in SUPPORT of HB 3202:

I urge you to support this bill which would be a good start towards darker skies for astronomers, both professional and amateur, and stargazers in general, to study and enjoy the heavens.

I hope to count on your support of the Night Skies bill, HB 3202, which seeks to mitigate the detrimental effects of light pollution on our environment.

House Bill 3202 builds on what other states have already done. This simple bill will help protect migratory birds as well as help ensure a vibrant ecosystem that benefits humans too.

It's easier to protect our night skies while we still have them than to try to restore them once they are gone.
