Committee: Joint Committee On Transportation
Measure: HB3202

IN SUPPORT OF HB 3202

I hope to count on your support of the Night Skies bill, HB 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

House Bill 3202 builds on what other states have already done. This bill helps prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as the effects on our own health and safety.

It's easier to protect our night skies while we still have them than to try to restore them once they are gone.
