Re: SB 348

Dear Senators,

I am a fellow Oregonian, concerned citizen, and professional living and working in SE Portland. I strongly urge you to work against and oppose SB 348.

SB 348 is in direct conflict with We The People of Oregon. We The People, including adults 18, 19 and 20 years old, need to defend ourselves with our firearms from criminals and tyrannical governments. And these young adults have the Constitutional guarantee of the Second Amendment to purchase firearms of their choosing to defend and protect themselves. To strip them of this guarantee through SB 348 is a violation of the law.

We need to maintain and purchase standard capacity magazines to protect ourselves. To ban these magazines would not only be unconstitutional, it would not protect law-abiding citizens, rather put them in more danger from criminals who would have these standard magazines.

Oregon already has plenty of laws now to discourage people from doing evil deeds. These laws need to be enforced, not add a useless one.

Protect our fundamental rights and reject SB 348.
