

Submitter: Ashley Schofield  
On Behalf Of:  
Committee: House Committee On Education  
Measure: HB2895

My name is Ashley Schofield. I'm writing to urge you to vote to make sure that we are funding our schools adequately. HB 2895 move to remove funding caps on Special Ed services and I am writing to ask that you support this bill. There has been an urgent call to action by districts, families, and teachers to demand adequate funding for our public schools in Oregon, and I hope the sub-committee is listening. For too long we have not adequately funded our schools, and with Governor Kotek's commitment to prioritize education, the time is now to back that up with adequate funding for all of our schools and students.

It is important we fund the State School Fund because it's vital to provide fair and adequate education for Oregon's 550,000 K-12 students, and to pay for district operating expenses, transportation costs and other needs that support a successful school.

Thank you for taking the time to read my letter. Please vote yes on HB 2895
