

Submitter: Pat Krikorian

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB409

I am a retired teacher from California. I was shocked to see that the school's curriculum is not posted online for parents (or anyone for that matter ). I can't imagine a good reason why that should not be available at the touch of a keystroke. It would be easy for the schools to do and easy for busy parents to access. Transparency is a good thing. Please vote yes on SB 409.
