

Submitter: Joshua McCabe  
On Behalf Of:  
Committee: Senate Committee On Judiciary  
Measure: SB348

Good morning,

I am writing this morning more concerned than ever for the people of the state of Oregon. I have just been made aware that the radicals in the state have decided to make it even worse in terms of taking freedoms established by the constitution. After reading the latest report about the intent to “gut and stuff” measure 114 with even more ridiculous and restrictive rules it makes me wonder who is going to be left in this state when they decide that taking second amendment rights aren’t enough? This is nothing more than a continuation of the attack on the freedom of the law abiding, tax payers who just want to raise their family in peace. It seems that the government in this state is dead set on supporting drug users and criminals while penalizing those who pay the taxes and go to work every day. This has to stop! Please do everything you can to help steer this state away from the cliff that these radicals seem to be seeking to take our state over. Thank you.
