Measure: HB3513

If the Legislature truly wishes to reduce gun violence, then pass a law stating that all gun crimes shall be prosecuted and the maximum sentence imposed. Any DA, prosecutor, judge not adhering to this rule would be responsible for any crimes committed by the accused that they failed to attempt to convict and incarcerate.

Until the existing laws are enforced, stop wasting time. People are dying while the Legislature finds new ways to virtue signal and harass law abiding citizens, but fails to take the most obvious action of having the existing laws enforced.

Sincerely,

James Pistor
