Measure: SB348

SB 348, on face value appears to be directed at someone in possession of a gun illegally. However, as one reads further, it becomes obvious the bill is again to change policy, rules, guidelines , laws etc., that would negatively impact a legal gun owner.

In addition, some items are already covered in current gun ownership conditions so they are mute.

Furthermore, it's another attempt to stop a legal age citizen their unalienable right to the 2nd Amendment.

I am okay with tighter restrictions on illegal gun possession, such as minimum prison time (3-5 years) for illegal possession, but this will only be successful with enforcement.

I oppose this Bill as presented.

Thank you.
