

Submitter: Donna Bleiler  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB409

In a transparent world this information would be posted at least two weeks prior to the board meeting for adoption so objects could be voiced prior to adoption avoiding upset parents afterwards.

Talking to school board members that have gone out of the norm to put their curriculum and text books in the public library, say parents just don't have time to do a physical viewing without a reason. Having a web list of curriculum info would help them decide whether a physical viewing is important.

I OPPOSE the Committee's amendment -6, which waters down the bill to not be specific to the school the child attends. Making the search challenging does nothing for transparency and is no better than not passing this bill.
