Measure: SB348

I strongly oppose this bill. You all should be ashamed of yourselves, wasting tax payer dollars to ram rod these bills through that violate the constitution and get held up in court on the tax payers dime yet again. In case you haven't noticed, it is not law abiding citizens who are shooting people. The desire of this legislative body to continually try to lessen the prison term for violent crimes, decriminalize prostitution and drugs and then remove protection from the law abiding citizens makes no sense whatsoever. Please observe Portland and ask yourselves if the uptick in homicide has continued upward since they made it illegal to have a gun in the city. Prosecute those who cause harm to others and provide funding for mental health care if you care about the safety of our communities. With the uptick in fentanyl overdoses and the massive quantities coming into our state, you would think people would be screaming about the safety of our community from the drug traffickers.
