

Submitter: Neena Petersen
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3202
To Oregon Lawmakers:

I am writing to urge your support of HB 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

This is not a new concept, and in fact other states have already implemented such measures. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

Protecting our night skies while we still have them is easier than trying to restore them once they are gone.
