

Submitter: Erin Fankhauser

On Behalf Of:

Committee: Senate Committee On Education

Measure: SB409

I'm in support of SB 409 to make curriculum easily accessible to parents. My child has been 2 grade levels below in reading and it took way too long for me to realize part of the problem could be from him not being exposed to evidenced based reading curriculum that focused on phonics. We are finally getting him the help he needs by pushing for more phonics based reading programs. I think all parents have the right to know exactly what curriculum is being taught so they can make informed decisions on what is best for their child. No one cares more than the parent. Take the mystery of what is going on at school so parents can do their job of advocating for their child. Thank you.
