

Submitter: Steven Andreen

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On Education

Measure: HB5015

To whom it may concern,

Our schools are in dire need of additional funding. Our support systems on campus are critically underfunded. At this point we are unable to adequately support our SPED students because we are not able to provide instructional aids that these students desperately need. Please do the right thing for students and educators and give us the help we need to do the best thing for children.

Respectfully,  
Steven Andreen
