Measure: HB3202

To Oregon Lawmakers:

I hope to count on your support of the Night Skies bill, HB 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

It's time for Oregon to get to work to address this issue. Behavioral and hormonal changes in animals due to over-illumination can have far-reaching effects on public health as well.

It is easier to protect Oregon's night skies while we still have them than to try to restore them once they are gone.
