

Submitter: Melaniya Huff  
On Behalf Of:  
Committee: Senate Committee On Education  
Measure: SB409

My testimony,

This will place accountability on teachers, who try to go outside of planned materials and teachings and insert a personal/political agenda into the teaching and doing things with our children that would be inappropriate by the educators and that parents would take issue with.

In a transparent world this information would be posted at least two weeks prior to the board meeting for adoption so objects could be voiced prior to adoption avoiding upset parents afterwards.

Talking to school board members that have gone out of the norm to put their curriculum and text books in the public library, say parents just don't have time to do a physical viewing without a reason. Having a web list of curriculum info would help them decide whether a physical viewing is important.

I support this Bill  
Thank you.
