

Submitter: Svein Wiese-Hansen  
On Behalf Of:  
Committee: House Committee On Judiciary  
Measure: HB3513

It is saddening to see further additional bills going through Salem. Yet again valuable time and effort is being wasted on things that will do nothing to protect the residents of Oregon.

It is now unsafe to walk around almost any city in Oregon, especially all our major cities. The crime rates along with homelessness is skyrocketing, there is garbage everywhere, roads are in shambles, graffiti on every wall you see, businesses are closed and people are can not afford basic needs yet you are focusing on removing guns from the hands of citizens that have legally obtained them, gone through several background checks and have never committed any crimes.

If you would like to solve "gun violence" then it's time for you and the other elected officials to focus on the criminals. Getting and keeping them off the streets and funding our law enforcement. Please stop focusing on the easy fix that is actually not a fix at all but rather opening the door for more violence. Remember, criminals do not follow our laws and do not care about any rules you put in place about when or where they can have guns. Only the law abiding citizens follow the rules so all your efforts are wasted unless your goal is to only harm law abiding citizens?

Concerned voter,
