

Submitter: David Owen

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

I am in opposition of sb348 because I am a law abiding citizen who is doing my best to provide for my family and protect them. When you guys put bills like this through it makes it harder for me to not be a criminal all of the sudden. Secondly if a criminal is going to do something what makes you think that he is going to abide to the laws to reach his end goal? So you are hindering the people that want to abide by the laws of the land and enabling the criminals to take over. We have our second amendment rights to help provide and protect our family and community. Please stop messing with our rights.
