

Submitter: Chad Grandfield

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

This bill would prohibit sale/purchase of many of the natural materials we use as fly fishing enthusiasts to tie or make flies with. This is unfair- fly fishing and tying is a past time many enjoy in our beautiful state and the community within the sport are forward thinking about conservation and protections of our waterways. Please make fly fishing, fly tying, and fishing exempt from this bill!
