IN SUPPORT OF HB 3202

I am writing to urge your support of HB 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

It's time for Oregon to get to work to address this issue. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!

Please prioritize the wellbeing of wildlife. We have done so much harm to the natural world and its wild inhabitants. It's time to repair the damage.

Most sincerely and urgently,

Debra
