

To the Oregon State Legislature Judiciary Committee:

Legislation to implement Measure 114, now in the form of SB 348, must fully implement the measure as Oregon voters passed it. Please clarify provisions and smooth implementation but do not weaken.

I am neutral on SB 348-1. I appreciate your hard work on this critical issue, recognizing that the fallout of 100 deaths by guns in America each day is exponential in its reach. Social-emotional health effects across the state and nation are grave. Thank you for working to arrest this plague. Thank you for not weakening Measure 114.
