Measure: HB3202

Dear Legislators,

I am writing to urge your support of HB 3202, which will create standards to limit and mitigate light pollution across Oregon.

House Bill 3202 builds on what other states have already done. This bill helps prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as the effects on our own health and safety.

Protecting our night skies while we still have them is easier than trying to restore them once they are gone.
