This is a no brainer...
IN SUPPORT OF HB 3202

We MUST count on your IMMEDIATE support of the Night Skies bill, HB 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

House Bill 3202 builds on what other states have already done. Behavioral and hormonal changes in animals due to over-illumination can have far-reaching effects on public health as well.

It's easier to protect our night skies while we still have them than to try to restore them once they are gone.
