

Submitter: Craig Yon
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

Good Morning,

I am writing testimony against SB 348. This bill will do nothing in my mind to lessen murders or gun violence. We have enough laws on gun violence and murder but none or very few are enforced. Do something about the criminal if you really want to make a difference. The only thing this bill will do is make it harder for law abiding citizens of this state to purchase a firearm. It will also just be another revenue source for the state to spend on the homeless or what ever the agenda is. I would love to hear from just 1 Senator or House member without restating Giffords or Mom's talking points, Why do you hate firearms so much?

Thank you,
Craig Yon
