IN SUPPORT OF HB 3202

I hope to count on your support of the Night Skies bill, HB 3202, in order to help improve wildlife welfare, human health, and our environment generally.

This is not a new concept, and in fact other states have already implemented such measures. Nocturnal animals are dependent upon uninterrupted nighttime hours, and behavioral changes stemming from over-illumination can have effects on humans' ecosystem as well.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!
