

Submitter: Steve Ebert

On Behalf Of:

Committee: House Committee On Judiciary

Measure: HB3390

As a fly fisherman and a person who ties my own flies, This legislation would make it impossible for me to buy flies ( many of which are made with deer or elk hair...or mink tail hair as well as feathers or to buy the materials I usually use to tie flies. There are thousands of fellow fly fishermen who will find this situation very difficult.
