Measure: HB3202

Testimony in SUPPORT of HB 3202:

Please vote YES on H.B. 3202 (the Night Skies Protection bill) which can help curtail the damage done by light pollution to wildlife as well as human health.

Many other states have taken such steps already. Nocturnal animals are dependent upon uninterrupted nighttime hours, and behavioral changes stemming from over-illumination can have effects on humans' ecosystem as well.

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!
