Committee: Joint Committee On Transportation  
Measure: HB3202

IN SUPPORT OF HB 3202

I am writing to urge your support of HB 3202, in order to help improve wildlife welfare, human health, and our environment generally.

Many other states have taken such steps already. Behavioral and hormonal changes in animals due to over-illumination can have far-reaching effects on public health as well. Light pollution also leads to more window strikes due to the disorientation it causes for migratory birds.

It's easier to protect our night skies while we still have them than to try to restore them once they are gone.
