Measure: SB348

Who knows, maybe the original version of this bill that simply directs the DoJ to do a study might have been a fine thing to do (though likely a waste of time, given how things go in Oregon these days), but the proposed 64 page amendment is CLEARLY contrary to both the US and Oregon constitutions, and is in direct opposition to the recent Bruen decision. Quit wasting time and money (and forcing The People to do likewise, at great expense) with these proposed laws that violate our rights and WILL eventually be overturned (due to their unconstitutionality) and start holding people who actually commit crimes accountable. My wife and I STRONGLY oppose this bill.
