

Submitter: Debra Merskin

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3202

Oregon has so many special natural features and experiences. The many ecological zones, sea level and mountain tops, high desert, and near rain forest. Most Oregonians want to protect these natural elements for the present and the future. Something else we can enjoy in Oregon is our starry nights. I urge you, for residents and for the tourist draw, to support this bill. Thank you.
