

Submitter: Carol Brownrigg
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

I appreciate the work of the Judiciary Committee and the difficulty of your job. However, please do not weaken Measure 114 that was supported and passed by Oregon voters. With the latest school shooting in Nashville, it is very clear we must all resolve to redouble our efforts. How guilty you must feel after each child's death that could have been prevented...but you did not act.
