Measure: SB348

Mr. Prozanski, if you took the time to read the testimony in regards to your SB 348, you will see about 99.95% of the people testifying are 100% in opposition of this bill. Maybe it is because SB 348 like Measure 114 it is trying to replace is unconstitutional. Is it that you, for whatever reason(s), take issue with people exercising their god given 2nd amendment rights? The law abiding gun owners ARE NOT THE PROBLEM, AND NEVER HAVE BEEN. Where does it stop? Does it stop only when the government, be it state or federal, takes all rights from the people leaving them 100% dependent upon the government? I hate to tell you this, but it doesn't work that way. But continue pushing this unconstitutional bill and it will wind up in the courts like Measure 114 with it's very own TRO. Here is a novel idea. Put forth a bill that puts the blame where it belongs, upon the criminal(s). But then again that would just make too much sense.
