Measure: SB348

Oppose! My story became disabled 7/21 with a back surgery medical disability retirement after 22 yrs with the railroad in track maintenance. On a fixed limited income the government requirements for classes and permits are out of my income range! This work around of m114 that has been voted on and we see the bill was poorly written and sheima fagan failed to do her job by letting this on a ballot STOP the SOROS west coast gun grab do not let this bill move forward!
