

Submitter: Matthew Lee

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

Does not actually help combat unlawful use of firearms from criminals, as they do not care about the law and this will not affect them. This bill will affect law abiding citizens that aim to protect themselves and their families. Statistics already prove that the notions mentioned in this bill do not actually help lawful citizens, but rather hinder their first and second amendment rights. Let alone show that they do not trust their court systems nor that the people can govern themselves.
