

Submitter: Martin Claxton
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

Dear members of the committee,

Yesterday I testified remotely opposing SB348, a bastardization of ballot measure 114. The measure is currently facing legal challenges that must be allowed to proceed and play out. SB348 will never serve the public interest of the residents in the state of Oregon. This bill infringes only on the law abiding citizens of the state. Criminals, as always will get a free pass, but it never seems to be the criminal that is targeted by the majority party in this state. I urge you to reconsider this awful bill, and consign it to die in committee in the interests of fairness to the state's law abiding gun owners, and public safety at large.

Thank you.
