

Submitter: Amanda Case
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB320

Oregon continues to have increasing crime across the state and now you are looking at going against the will of the Oregon voters to bypass a bill that was already passed to lessen their punishments. Oregonians don't want more criminals out on the street! We want them serving the time for their crimes. It has been proven in many studies that crime without punishment leads people back to a path of more crime. It feels like our legislators genuinely don't care about the law abiding good citizens of this state.
