Measure: HB3202

Testimony in SUPPORT of HB 3202:

I hope to count on your support of the Night Skies bill, HB 3202, in order to help improve wildlife welfare, human health, and our environment generally.

Oregon should follow the lead of other states that have already taken this step. Behavioral and hormonal changes in animals due to over-illumination can have far-reaching effects on public health as well.

It's easier to protect our night skies while we still have them than to try to restore them once they are gone.

As an architect, it is my duty to help protect the public's health, safety, and welfare. This bill will help do that.

Thank you,
