

Submitter: Kathleen Fisher
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3202

To the Oregon Legislature:

Please vote yes to pass House Bill 3202. This bill creates standards to limit and mitigate light pollution across Oregon. Since childhood, I have loved studying the night sky. HB 3202 will help us see more stars, planets, constellations and the wonders of our universe. Additionally, it will help prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as the effects on our own health and safety.

Protecting Oregon's night skies while we still have them is easier than trying to restore them once they are gone.

Thank you.
