

Submitter: Justin Blackmore
On Behalf Of:
Committee: Senate Committee On Judiciary
Measure: SB348

Hello,

My name is Justin Blackmore and I strongly oppose this bill. The bill was submitted as a blatant work around to bypass the injunction of measure 114 and was done in a manner that speaks volumes to how far the committee is willing to go to strip rights away from the people they represent. You know exactly why this bill was submitted on a Friday with to be discussed on a Monday it was to try and sneak it through without giving the opposition time to react. Guess what it didn't work! People are tired of these games being played with our rights as Oregonians. This bill does not prevent crime it creates it and punishes law abiding Oregonians and even creates retroactive criminal charges against gun owners. This is at its core terrible and the people pushing it are either blind to the truth or simply want to strip our rights away and it is becoming clear its the later. Almost every gun owner on the planet wants to see mass shootings stop they are horrible but this bill will not do anything to address the real issues. Please do the right thing and scrap this bill immediately.
