

Submitter: Sierra S
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3202

To Oregon Lawmakers:

I hope that you will be a yes vote for House Bill 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

This is not a new concept, and in fact other states have already implemented such measures. Behavioral and hormonal changes in animals due to over-illumination can have far-reaching effects on public health as well.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!

This is an easy step to take to help out our ecosystems.
