Committee: Joint Committee On Transportation
Measure: HB3202

To Oregon Lawmakers:

I hope that you will be a yes vote for House Bill 3202, in order to protect our ecosystem against the damages caused by light pollution.

It's time for Oregon to get to work to address this issue. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!
