Testimony in SUPPORT of HB 3202:

I hope that you will be a yes vote for House Bill 3202, which will create standards to limit and mitigate light pollution across Oregon.

This is not a new concept, and in fact other states have already implemented such measures. This simple bill will help protect migratory birds as well as help ensure a vibrant ecosystem that benefits humans too.

It's easier to protect our night skies while we still have them than to try to restore them once they are gone.
