Measure: HB3202

To Oregon Lawmakers:

I hope that you will be a yes vote for House Bill 3202, which will create standards to limit and mitigate light pollution across Oregon.

Oregon should follow the lead of other states that have already taken this step. Behavioral and hormonal changes in animals due to over-illumination can have far-reaching effects on public health as well.

It is easier to protect Oregon's night skies while we still have them than to try to restore them once they are gone.
