

Submitter: Alex Pape

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

348 is as unconstitutional as 114 is and 114 was stopped by the courts for that very reason. The people who voted for 114 were misled by the title and were dooped into voting for it. Nether would do anything to prevent criminals from getting and using guns for illegal purposes and would only make it harder for law abiding citizens from defending themselves from those criminals. Plus it would effectively turn law abiding citizens into criminals by outlawing guns and assesories they already own.
