

Submitter: Erica Templeton

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3202

Testimony in SUPPORT of HB 3202:

Please support the Night Skies bill, HB 3202. This is a simple but sweeping and crucial step we can take to reduce human impact on wildlife!

House Bill 3202 builds on what other states have already done. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!
