

Submitter: Betty Moore

On Behalf Of:

Committee: Joint Committee On Transportation

Measure: HB3202

To the Oregon Legislature:

I hope to count on your support of the Night Skies bill, HB 3202, in order to protect our ecosystem against the damages caused by light pollution.

House Bill 3202 builds on what other states have already done. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

Let's protect our night skies now while we still have them, instead of trying to restore them after they're gone!
