

Submitter: Ashley Gora
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3202

Dear Legislators,

As a Portland resident I urge you to vote yes for House Bill 3202, which will create standards to limit and mitigate light pollution across Oregon.

House Bill 3202 is not a new concept and builds on what other states have already done to reduce light pollution in our night skies. This simple bill will help protect migratory birds, as well as insect populations including pollinators that make up the base for a healthy ecosystem. Plus, this bill will ensure a vibrant ecosystem that benefits humans too.

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!
