Measure: HB3202

Testimony in SUPPORT of HB 3202:

Please support House Bill 3202, which can help curtail the damage done by light pollution to wildlife as well as human health.

Oregon should follow the lead of other states that have already taken this step. Light pollution can disrupt carefully choreographed ecosystems including impacting animals' feeding habits, migration, and predator/prey relationships, and can have far-reaching effects on human health as well.

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!
