

Submitter: Joseph Klatt

On Behalf Of:

Committee: Senate Committee On Judiciary

Measure: SB348

SB 348 is not only unconstitutional but will limit access to firearms for those with lower income. With public safety and the amount of crime running rampant in Oregon's big cities, citizens have been left with the need to arm themselves for self protection. SB 348 is yet another attempt by Oregon Democrats to circumvent the rule of law by an acting judge in our state. I whole heartedly oppose this bill and chastise those that decided to bring it forward on the day 6 people were gunned down at a Christian School in a targeted attack. You people are disgusting! The focus should so obviously be mental health but whom ever wrote this bill obviously doesn't care, for example just look at our streets and you will find mentally ill committing crimes only to be released back to commit them again. Stop blaming good legal gun owners and focus on cleaning up the mental health crisis so many of you continue to turn your back on.
