

Submitter: Kathryn
On Behalf Of:
Committee: Joint Committee On Transportation
Measure: HB3202

To Oregon Lawmakers:

Please vote yes on Night Skies bill HB 3202 to standardize and limit light pollution at night.

Other states have successfully taken the lead by implementing such standards and it's time for Oregon to catch up. Over-illumination can have far-reaching effects on public physical and emotional health.

Humanity has extended its arm until all other life forms are dependent on us. It has become our sacred duty as their stewards to pass far-reaching and stringent policy to protect and preserve them. I urge you to support this bill.

Sincerely,
Kathryn Ferrandino
