Committee: Joint Committee On Transportation
Measure: HB3202

To Oregon Lawmakers:

I hope to count on your support of the Night Skies bill, HB 3202, in order to help improve wildlife welfare, human health, and our environment generally.

This is not a new concept, and in fact other states have already implemented such measures. This bill helps prevent birds and nocturnal animals from being adversely affected by over-illumination, as well as the effects on our own health and safety.

It's easier to protect our night skies while they're still here than to try to repair them after they are gone!
